

DUROSTICK D-7 Natural stone cleaner

PROPERTIES

D-7 is a powerful cleaner. It removes construction residues from natural stones, restoring their natural look. It cleans in depth accumulated dirt, salts, mud rain, black spots, mold, as well as oil, coffee, rust and noncured paint stains.

It does not affect the natural look of stones and/or grouts. Its use is necessary prior to waterproofing and/or decorating a surface with varnish.

APPLICATIONS

D-7 is used on walls and floors lined with natural stones (pic.1,2). Before use, it is recommended to test the cleaner on a small area, particularly for stones sensitive to powerful cleaners (e.g. limestone).

It is recommended to use the product 28 days after grouting. Its use is necessary for removing construction residues, prior to the application of RENOLIT, matte waterproofing agent, or DUROSTICK NANO PROOF CERAMIC DS-270.

It is also necessary before applying any DUROSTICK stone varnishes, such as

D-12, satin finish, VISTA matte finish, DECOFIN EPOXY SF, gloss finish, or DECOFIN POLYURETHANE, matte finish,

Application of D-7 is not recommended for marble or artificial stones, and decorative bricks.

USE

1. Surface preparation

During application it is strongly recommended to use goggles and plastic gloves.

In indoor applications, open doors and windows to prevent vapour accumulation.

Remove stainless steel utensils and protect stainless sinks, faucets, etc., with plastic sheeting.

On outdoor applications, make sure that residue accumulations near planted areas are avoided, since there is risk of harming them.

2. Application

Apply D-7 on the surface as is, undiluted and scrub using a stiff broom. Let the product act for 3-5 minutes.

Finish the process by rinsing thoroughly with plenty of water.

TECHNICAL SPECIFICATIONS

Form - Color	Liquid - Transparent
Density	1.05 ± 0.05 kg/lit
pH	0-1
Application temperature	From +5 °C to +35 °C
Scent	Lemon
Flammable	No
Contains hydrochloric acid	

General Chemical State Laboratory Reg. No. 5311/0/99
Permit No. by General Chemical State Laboratory ELEFSIS 3093/2008

CONSUMPTION

1lt/4-5m² of surface.

STORAGE

Store in shaded places, protected from frost for at least 36 months from production date.

SAFETY DIRECTIONS

The product is corrosive and irritant to the respiratory system. It is recommended to keep locked away from the reach of children and apply it in well ventilated areas. Before use, refer to the cautions on the product packaging or the Material Safety Data Sheet.

PACKAGING

Carton box with 15 pcs of 1lt each one
5 lt, 20lt containers
